

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Map filed APR 17 1978

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) minimum 60,000 gal storage tank
with underground pipe to heed sights on property
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works.....\$50,000.00
10. Estimated time required to construct works.....5 years
11. Estimated time required to complete the application to beneficial use.....1 year
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

I plan to build three dwellings on the above described land at this time. If water standards (tests) good I will use this well for multiple domestic & irrigation use.

APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit is abrogated by Permits 38657 and 38658. This permit is issued only to retain the date of priority of the original application. In the event of the cancellation or withdrawal of Permit 38657 and/or Permit 38658, no rights will revert to this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....0.376.....cubic feet per second, but not to exceed 4.5917 million gallons annually.

Actual construction work shall begin on or before.....Abrogated by Permits 38657 and 38658

Proof of commencement of work shall be filed before.....Abrogated by Permits 38657 and 38658

Work must be prosecuted with reasonable diligence and be completed on or before.....Abrogated by Permits 38657 and 38658

Proof of completion of work shall be filed before.....Abrogated by Permits 38657 and 38658

Application of water to beneficial use shall be made on or before.....Abrogated by Permits 38657 and 38658

Proof of the application of water to beneficial use shall be filed on or before.....Abrogated by Permits 38657 and 38658

Map in support of proof of beneficial use shall be filed on or before.....Abrogated by Permits 38657 and 38658
